

AF-II

Product Code : Q00084
Product Group: WATER TREATMENT
Packaging: 25L, 210L

PRODUCT DESCRIPTION

AF - II is a strong general purpose antifoam which consists of special anti - foaming additives whose combined action creates a very effective product.

PRODUCT USES

AF - II is used to neutralize foam in:

- | | |
|-----------------------------|---------------------------------|
| ✓ Pulp and paper Industries | ✓ Paint Industries |
| ✓ Distilleries | ✓ Organic cleanings |
| ✓ Food Industries | ✓ In liquid or solid detergents |
| ✓ Textile Industries | ✓ In caustic soda solutions |
| ✓ Plastics Industries | ✓ In Hydrochloric acid |
| ✓ Polyethylene Industries | ✓ Drillings |
| ✓ PVC Industries | ✓ Cooling towers |
| ✓ Sewage Industries | |

and generally in industries where foaming problems appear.

APPLICATION & DOSAGE

AF - II is added to the solutions in a proportion of 0.01 - 0.3%. This proportion varies depending on the case.

Especially in distilleries, in caustic baths, a proportion of 0.01 - 0.05% is enough to eliminate the foam.

In liquid detergents, it is used in a proportion of 20-25% of the amount of the surfactants that exist in detergents.

APPROVAL

AF-II is approved by:

- The Hellenic Navy.
- The Greek Sugar Industry.
- The Public Power Corporation SA-HELLAS.

Also, the product is approved by the Benaki Foundation as non-toxic and suitable for use in Food Industries.

BENEFITS

- It is neutral and dissolves completely in water.
- It is non-toxic.
- pH does not affect its efficiency.
- It works at low temperatures as well as at high temperatures where silicone antifoam agents cannot work effectively.
- It is mostly used in aqueous solutions.

HEALTH SAFETY

Please refer to the Material Safety Data Sheet and Product Label for specific information.
