

## LIME STONE REMOVER

**Product Code:** Q00068

**Product Group:** DERUSTING & DESCALING COMPOUNDS

**Packaging:** 25L, 210L

### PRODUCT DESCRIPTION

LIME STONE REMOVER is a liquid acid type product that effectively removes lime, limestone, caustic lime deposits and dry lime stains from cargo tanks and other metal surfaces.

It contains inhibitors and surface-active agents to protect sound metal surfaces giving a more efficient reaction with the lime.

LIME STONE REMOVER is not recommended for use on aluminum and its alloys.

### APPLICATION & DOSAGE

LIME STONE REMOVER is used neat or diluted in water in a concentration 10-50 % depending on the thickness and hardness of the deposited lime layer.

LIME STONE REMOVER can be applied by spray, brush or dipping.

Circulate solution, hot or cold, until inspection shows system is free of lime.

To strengthen solutions weakened through usage, simply add more

LIME STONE REMOVER to restore solution to desired concentration.

Better results are accomplished when used up to a temperature of 60°C.

Rinse thoroughly using a high pressure machine.

Afterwards check the system and if there are still traces of limestone add some more of the product and repeat the above procedure.

### BENEFITS

- Can be used on ferrous metals.
- Does not affect plastic and rubber.
- Non-flammable.
- Water soluble.
- Easy to apply and use.

**HEALTH SAFETY**

Please refer to the Material Safety Data Sheet and Product Label for specific information.

**LIMITATION OF LIABILITY**
