

RUST REMOVER PLUS

Product Group: DERUSTING & DESCALING COMPOUNDS

Packaging: 25L, 210L

PRODUCT DESCRIPTION

RUST REMOVER PLUS is a de-oxidizing liquid detergent containing phosphoric acid and non - ionic surfactants used for rust removal and surface brightener. It is more efficient than RUST REMOVER, with a new heavy duty form to be used against the most severe types of rust.

PRODUCT USES

RUST REMOVER PLUS is used for the removal of heavy rust from iron and brightening of surfaces, removing of tarnish from brass, copper aluminum, as a protective pre-treatment prior to painting, removal of flush rust from mild steel cargo lines and tanks and finally as a cleaner from rust stains from painted surfaces, glass, porcelain etc.

APPLICATION & DOSAGE

RUST REMOVER PLUS can be used in full strength or diluted with water in a ratio of 1:4 to 1:6, depending on the soiled condition of the surface to be cleaned. Can be used by immersion, or spray and then rinse with water. Do not use RUST REMOVER PLUS on zinc, tin and galvanized surfaces.

We recommend, when system runs clean, to protect system from further corrosion, flush with water and neutralize residual acid with our product KEM-NUTRO or ALKALINITY CONTROL in a concentration of 1–2 % solution.

HEALTH SAFETY

Please refer to the Material Safety Data Sheet and Product Label for specific information.

LIMITATION OF LIABILITY
